Bachelors of Science in Computer Information Technologies - Dixie State University Specialization: Visual Technologies // Graduated 2007

"Hi, I'm Matt!"

Feel free to call me Kearl or Matt, but I'm pretty informal. I have been teaching at Utah Tech since the Fall of 2008, and love nerding out with my students in all things tech.

I've taught a lot of Web Development, SEO, Graphic Design, UX, IT, and HCI classes over the years. Previously, I worked in the private sector doing IT/Web for \sim 13 years, and have founded a few companies such as <u>stgnews.com</u>.

I have lived in St.George since 2006, but grew up in <u>Southern Alberta</u>, <u>Canada</u>. I love <u>mountain/road biking</u>, <u>astrophotography</u>, <u>scuba diving</u>, and rock crawling in my Jeep. I have 4 children, and my wife and I live in Washington Utah. If you want to connect outside of class, find me online on <u>FB</u>, <u>Insta</u>, or <u>TikTok</u>.
